

Apple eSIM Quick Transfer

Trasferimento Sim fisica – eSIM

Cosa è l'Apple eSIM Quick Transfer

L'eSIM Quick Transfer è una funzionalità Apple, supportata dall'operatore TIM, che consente di trasferire il profilo e il numero di telefono da una SIM fisica o da un'altra eSIM a un nuovo iPhone senza l'utilizzo del QR code. Questa tecnologia permette al tuo piano cellulare di essere trasferito automaticamente sul tuo nuovo iPhone durante la configurazione, o anche dopo, seguendo le istruzioni sullo schermo come descritto nelle prossime pagine .

L' Apple eSIM Quick Transfer è supportato su tutti gli iPhone compatibili con seguente software:

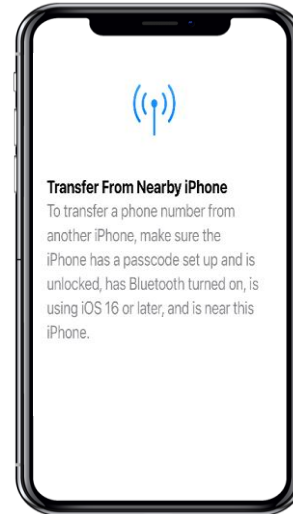

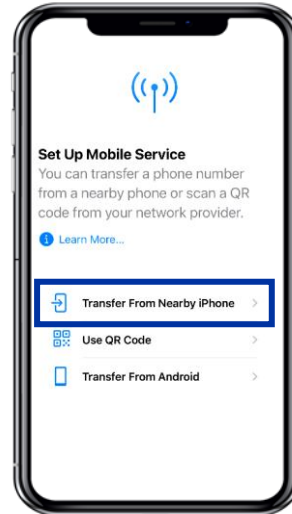

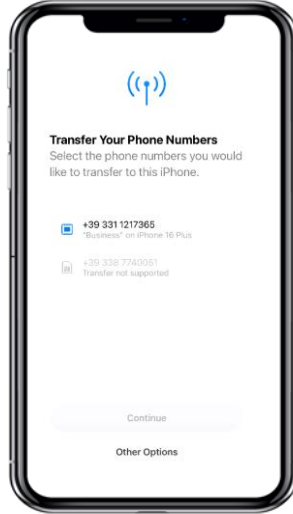

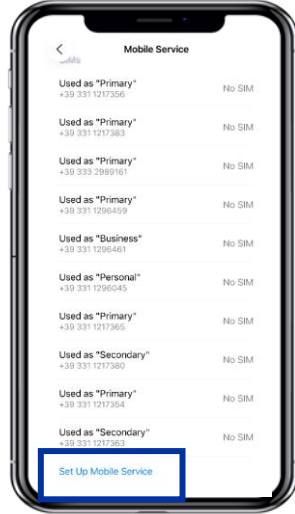

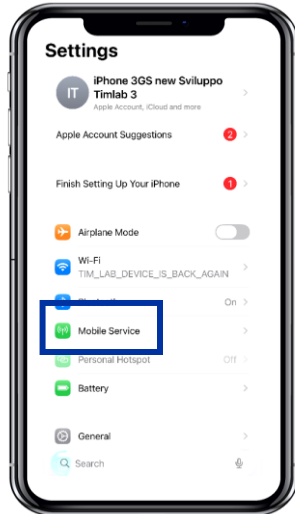

- **TIM 64.1 per iOS 18.7**
(iPhone SE 2^a e 3^a gen, Xr, Xs, Xs Max, 11, 12, 13, 14, 15, 16, 16e)
- **TIM 65.1 per iOS 26.0**
(iPhone SE 2^a e 3^a gen, 11, 12, 13, 14, 15, 16, 16e, 17, 17 Air, 17 Pro, 17 Pro Max)

Trasferimento pSim - eSim

Questo trasferimento pSIM-eSIM effettuato con OTP e verifica identità tramite (SPID) verrà descritto dalle seguenti schermate
